Welcome to Echo Yachts

At Echo Yachts, we understand that every Superyacht owner has their own unique requirements for their yachts' style, features and performance.

It is for this reason we specialise in being one of the very few Superyacht builders offering large 100% custom designed and built Superyachts, expedition and yacht support vessels tailored to meet our clients exact requirements.

We are a boutique company that focuses our full attention on a select few projects at a time, making the exclusive experience of building a Superyacht both enjoyable and memorable.

Echo Yachts' in-house design and production team provide an extensive wealth of knowledge, expertise and experience in custom aluminium, composite and steel new-builds, available in any style and hull form.

We work hand in hand with world renowned yacht designers, naval architects and interior designers to achieve the precise quality and performance requirements that our clients desire, whilst ensuring that all practical aspects of operating and maintaining our Superyachts are integral to the design and build process.

Many of our engineers and craftsmen have created some of the most iconic and awarded Superyacht builds in the world, which takes part in ensuring that every project Echo Yachts creates can be realised in the most precise, reliable and seaworthy manner possible.

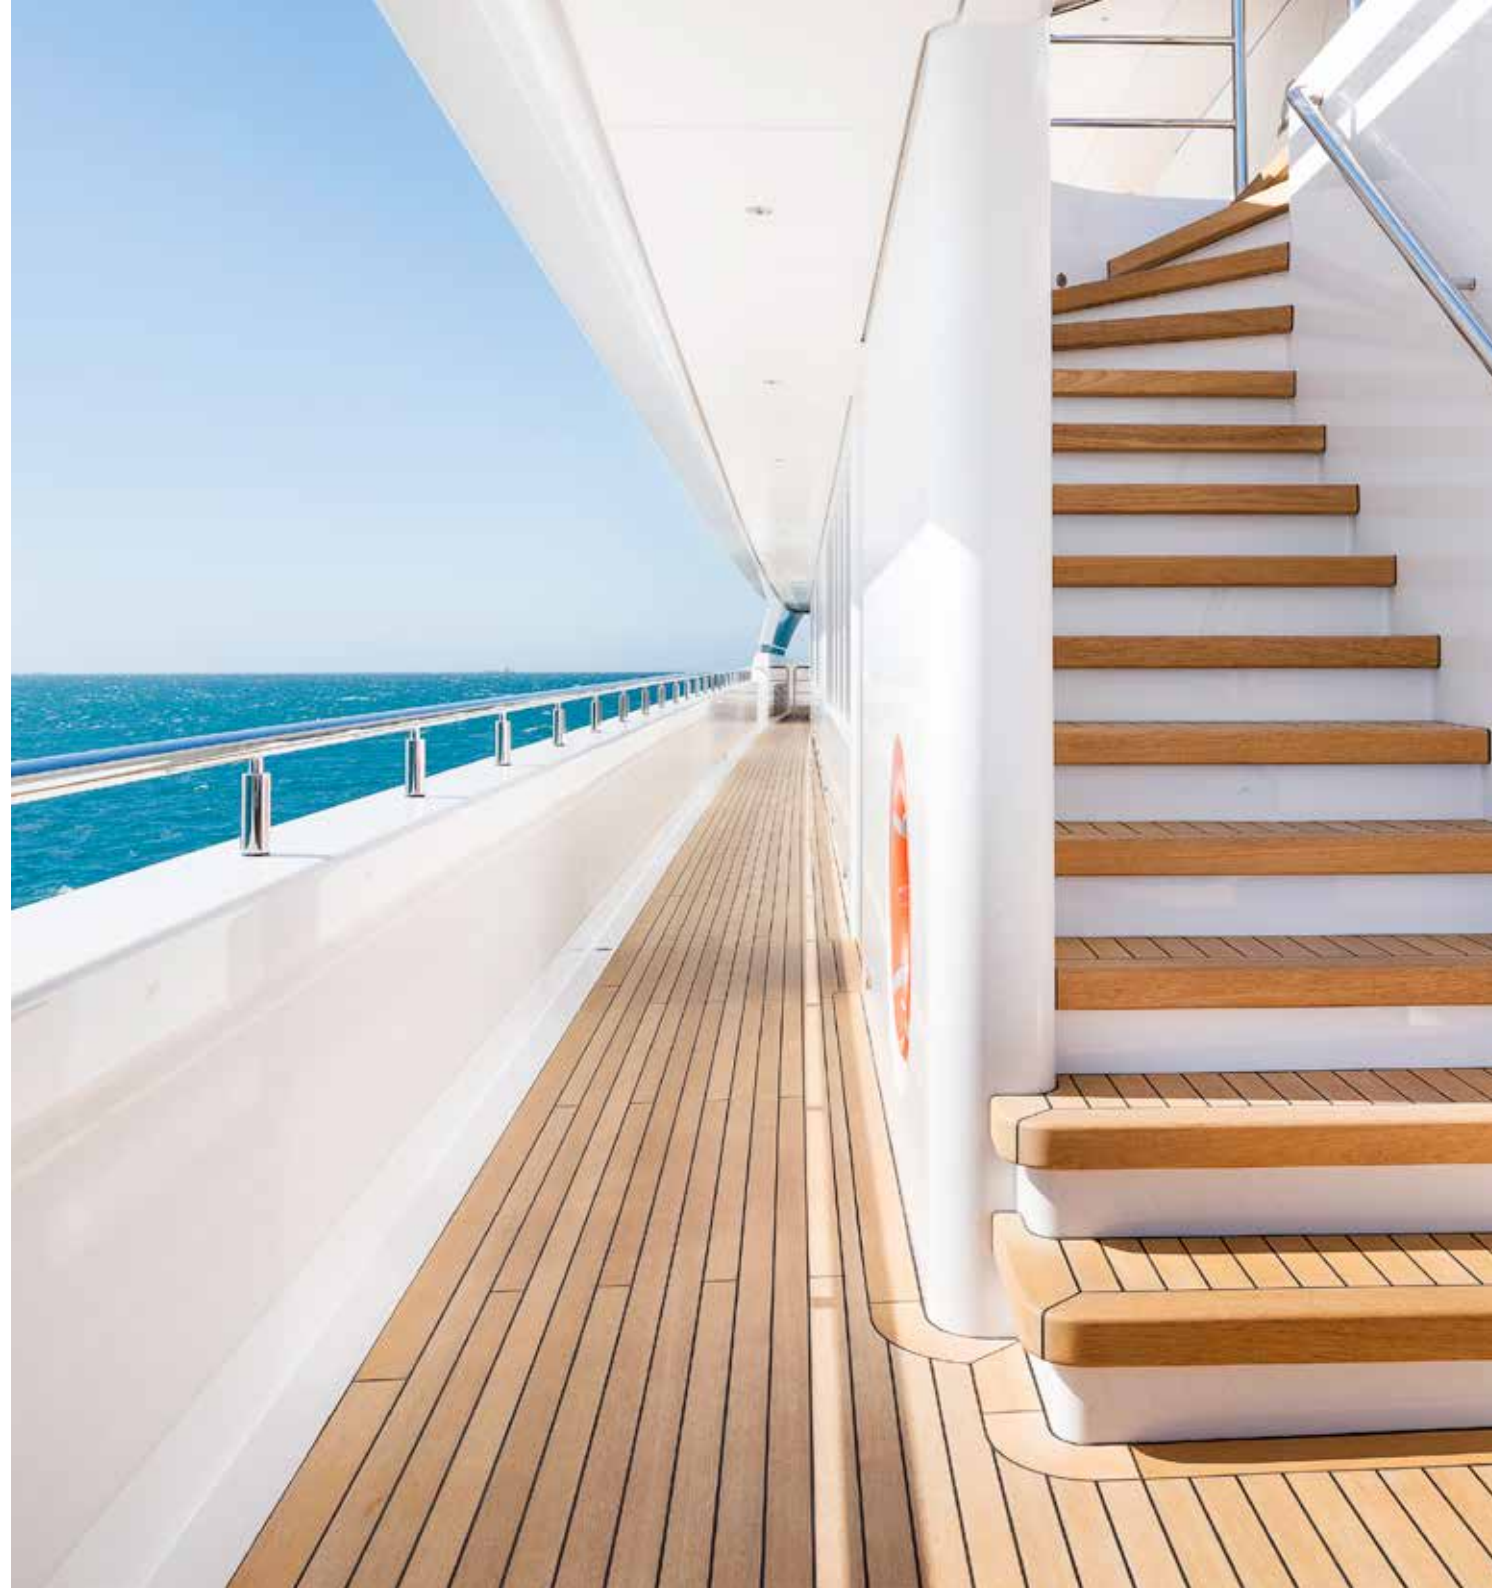

Echo Yachts Director
Mark Stothard

Custom Yachts

built specifically for you

Echo Yachts are proud to offer total design customisation to our clients. We understand that every owner is different and therefore so should their yacht be. Echo Yachts is comprised of accomplished industry professionals with international experience working independently and with world renowned designers to meet our clients every design dream and exceed their expectations.

Expert Exteriors

designed by the best

Echo Yachts exterior designs are tailored to each clients vision, making every one unique. An obvious signature among all of our yachts includes a timeless exterior with a notable presence that stands out among the rest. Our team comprised of world class naval architects and engineers push the boundaries of design and innovation to create Eco efficient Superyachts.

Designs* and created in
collaboration with Echo
Yachts.

Bespoke Interiors

finest materials & craftsmanship

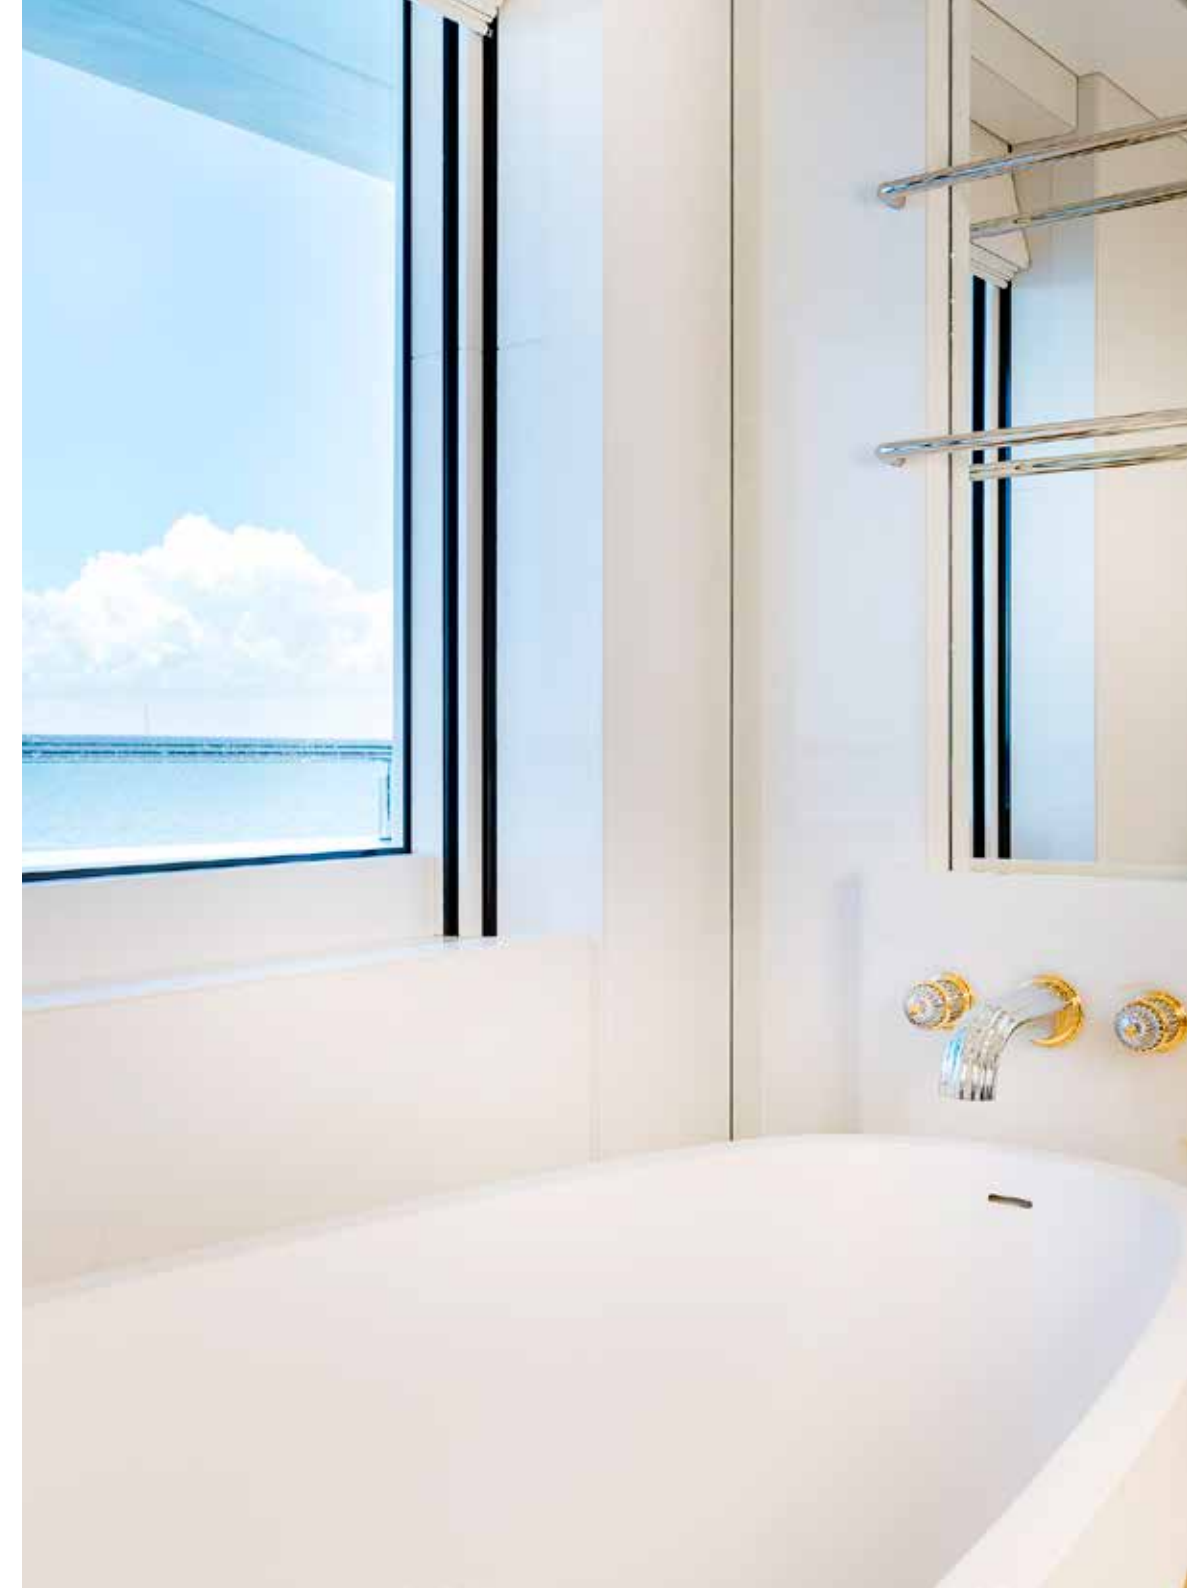

At the heart of every iconic Superyacht is a beautifully designed and crafted interior, produced with the finest materials and according to each clients preferred style. Echo Yachts produce or partner with leading international fitout specialists to provide our clients with the highest standard of bespoke and custom interiors. Our team is experienced in all yacht and ship building codes, materials and processes, which ensures that the interior design meets and exceeds the required standards without compromising the feel or finish of the interior.

Our Fleet

carefully refined superyachts

Monohulls

Catamarans

Trimarans

Realistic Concepts

so you won't have to imagine

Echo Yachts offers a comprehensive range of conceptual designs from our design library, that can also be tailored specifically to suit our clients exact design and engineering requirements.

Offering total design flexibility we can collaborate with our clients preferred Yacht designers, Interior Designers and Naval Architects, or we can offer the services of various world renowned European and Australian designers we have already worked with.

Adventure Catamarans

with all the toys & support you require

Echo Yachts also offer a premium range of luxury and Catamaran motor yachts and yacht support vessels. We have concepts for a 27m, 31m and 50m Catamaran. The Catamaran range is ~20% more energy and fuel efficient and has more internal and external living space compared to a monohull of the same length.

50m Catamaran designed by
Bannenberg & Rowell Design

Energy Efficient Trimarans

superior space and stability

105m Trimaran Superyacht designed in collaboration with *Sorgiovanni Designs*.

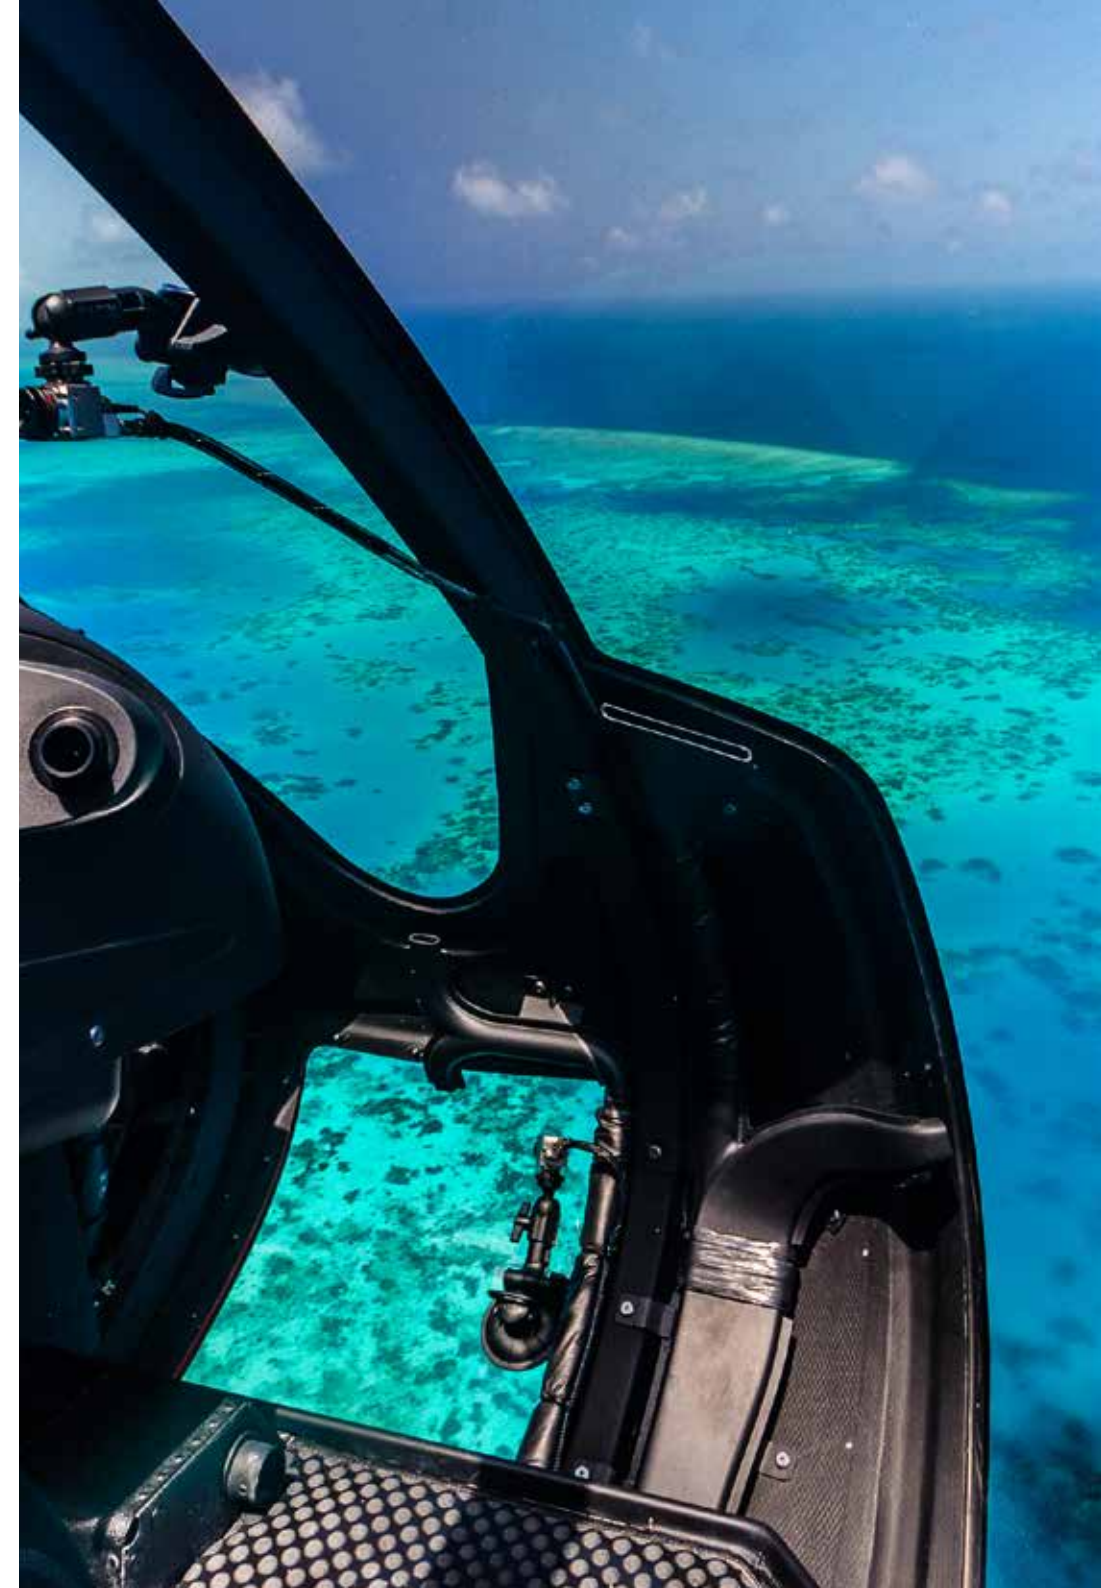

At Echo Yachts we offer a premium range of luxury trimaran Superyachts. We have concepts for a 38m, 40m, 85m, 105m, 120m Trimaran yachts.

The Trimaran range is up to ~40% more energy and fuel efficient than a conventional monohull of the same length and offers more internal and external living space with better stability.

Adventure Awaits

begin your journey

Island Hopping

by air and sea

Echo Yachts support vessels are built to take you to extraordinary places whilst maintaining a premium level of comfort and luxury, as well as providing all the necessary exploratory equipment that our clients desire.

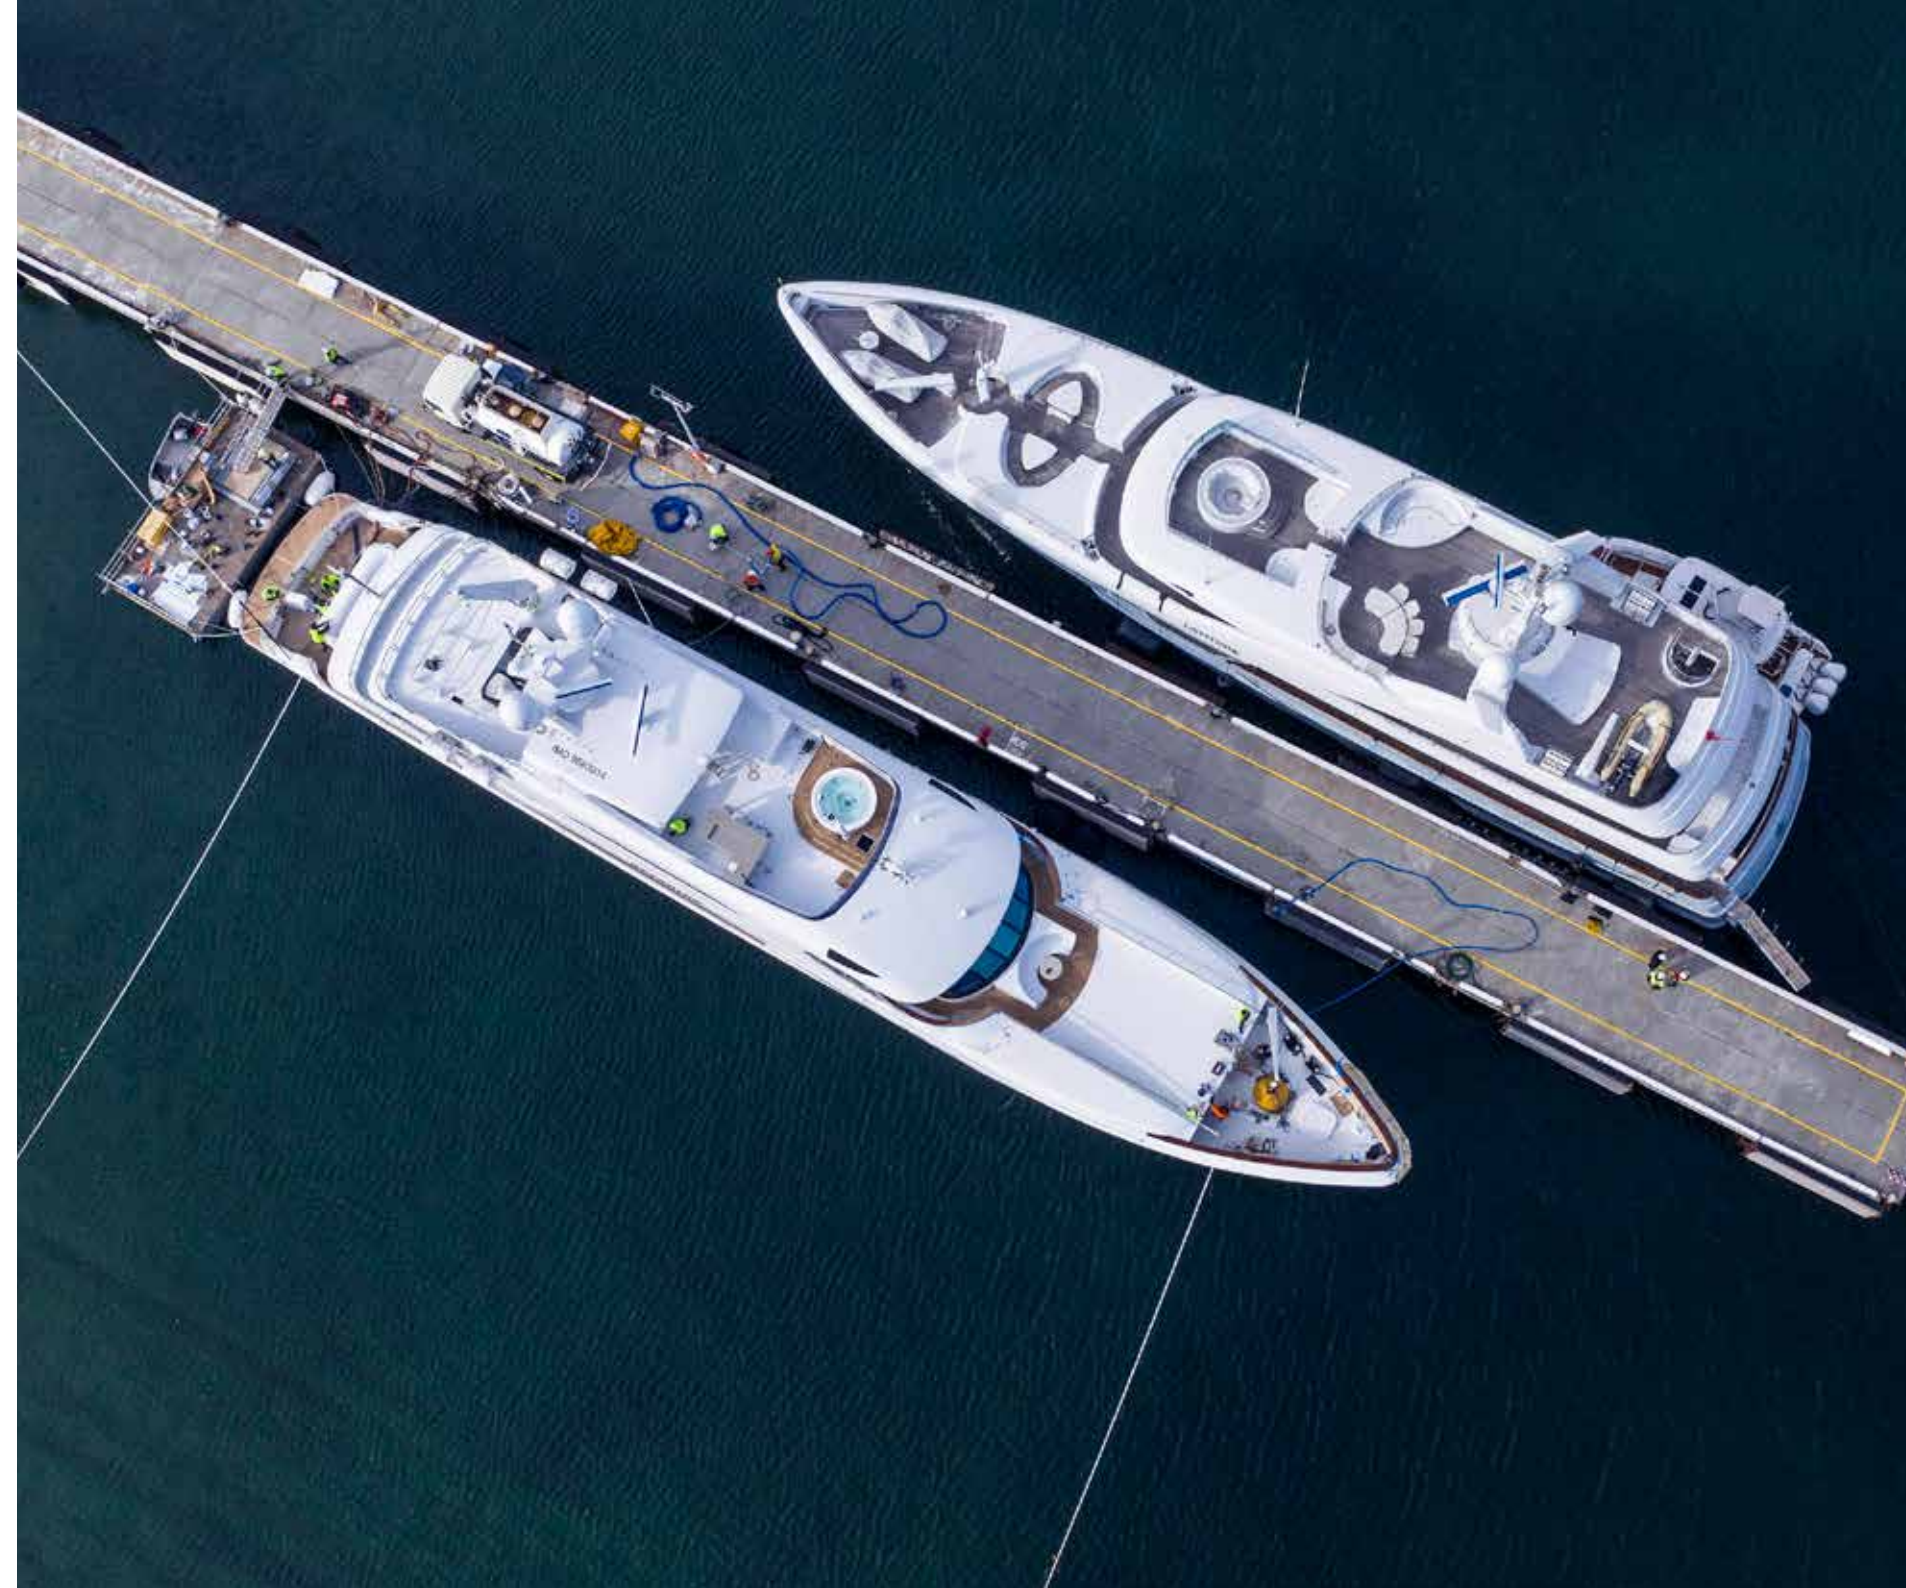

Custom Hull Manufacture

industry leading

Echo Yachts is one of few Superyacht builders in the world that offer custom new builds built in either aluminium, composites or steel, or a combination of these.

We are also the only Superyacht builder that offer proven expertise in quality construction of monohulls, catamarans and trimarans with our in-house team of designers, construction specialists' experience and know-how.

Maintenance & Refit

sustaining perfection

Echo Yachts provide all facets of vessel maintenance, including but not limited to re-design services, annual maintenance services, specialized aluminium, steel, and GRP repairs as well as large scale structural modifications, engineering, electrical, fitout and painting services.

Our haul out options include extensive wharf and dry-berth facilities and we have access to Australia's largest and most technically advanced floating dock, as well as other smaller haul out options.

Our Team

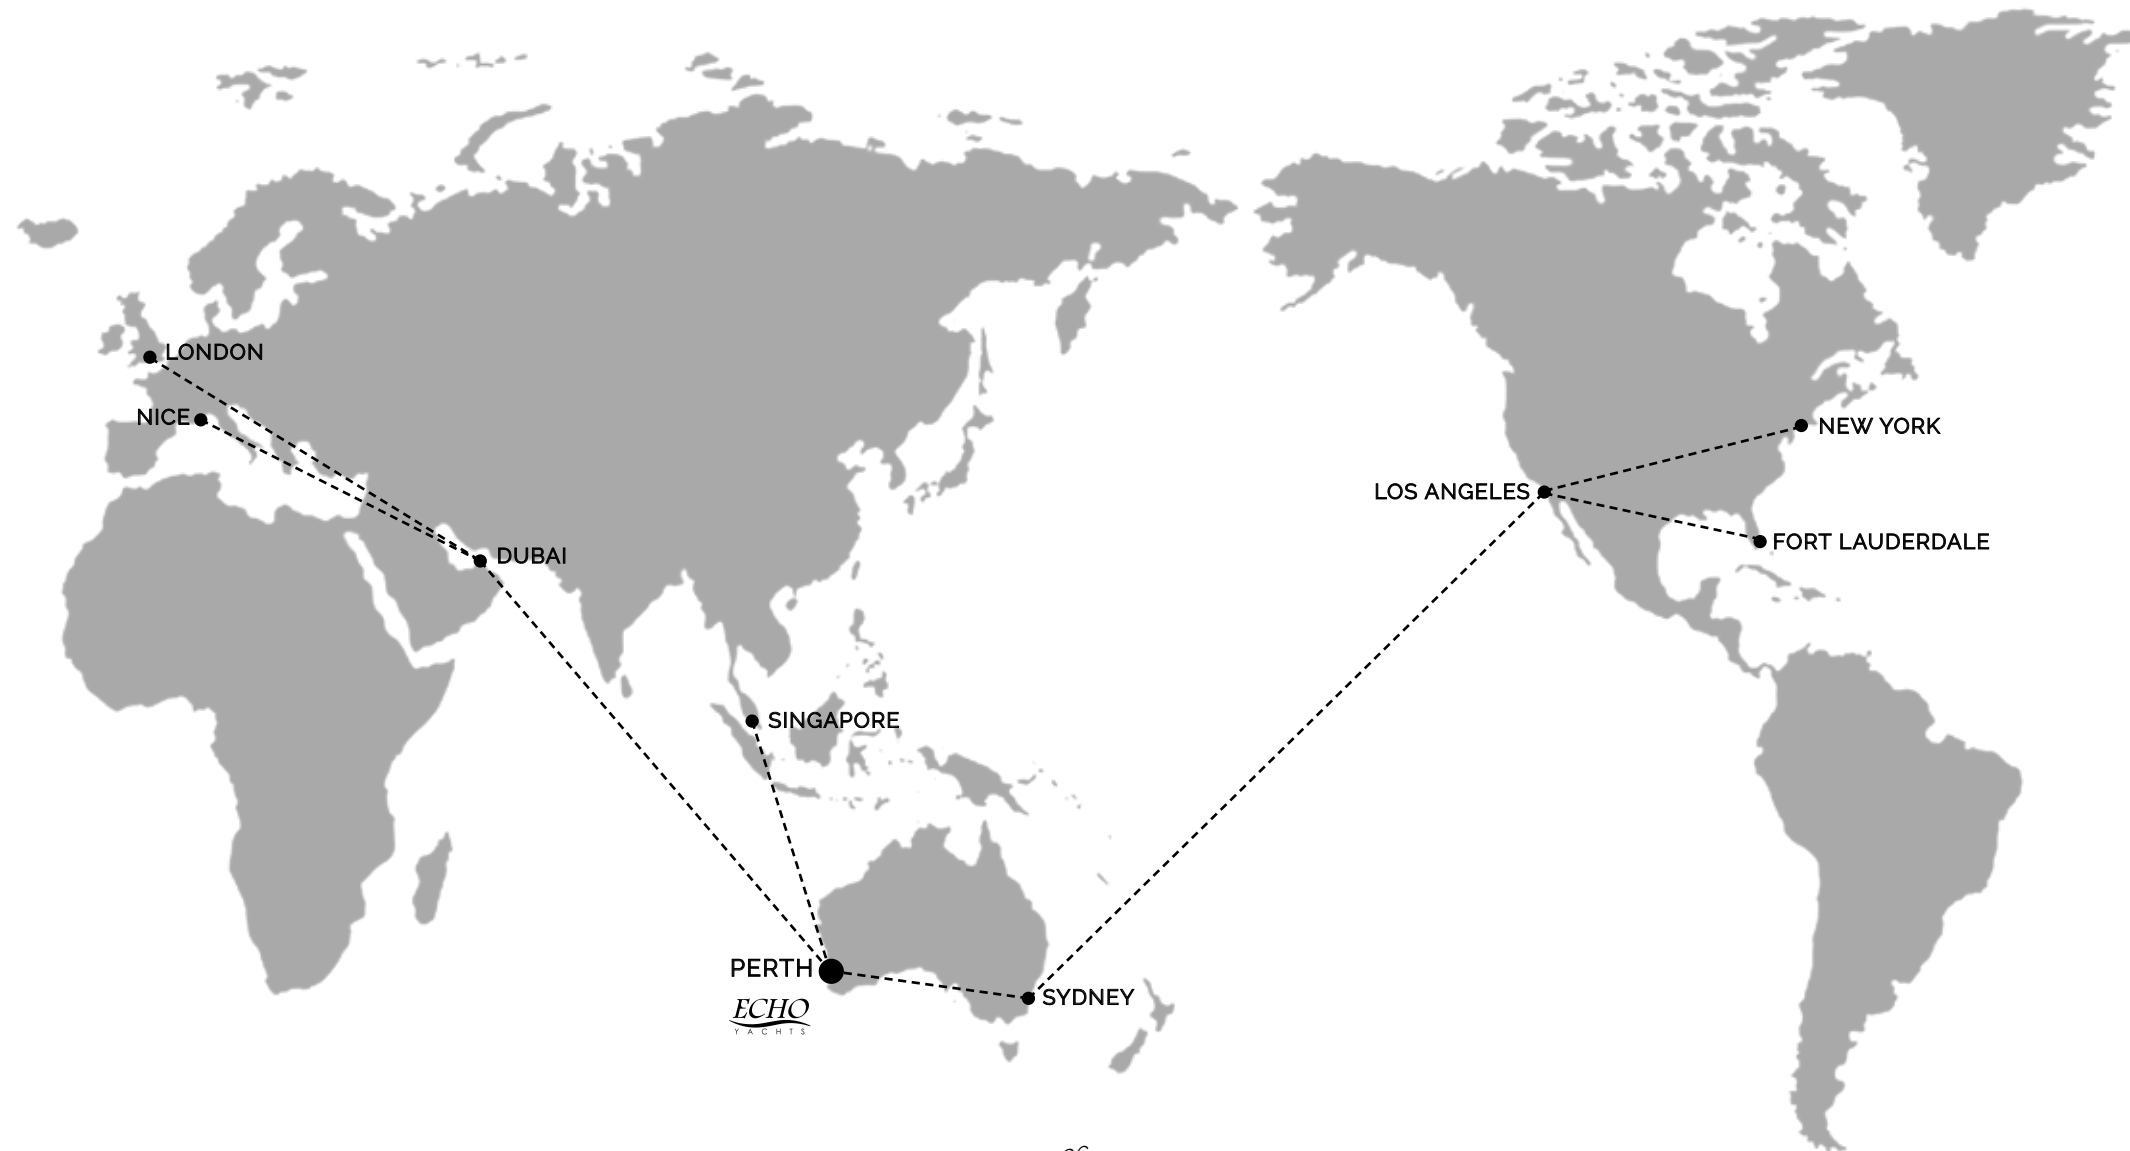

of industry professionals

At Echo Yachts our Management, Design and Manufacturing teams consist of world class industry professionals with decades of experience in Superyacht design, manufacture and maintenance. All of the above occurs in-house at our facilities in Henderson ensuring optimal workflow, quality control and efficiency. Our service support teams can be mobilised globally to provide support for our international Superyacht clients.
